Certificate II in Horticulture

AHC20422

Practical training for students interested in working outdoors.

VETiS funding for eligible students

Years 10-12
Queensland school students

No student fees*
For eligible VETiS students

Up to 4 credits*
Towards the QCE

Skills students can put to work

- Recognise plants, plant trees and shrubs.
- Treat weeds and plant problems.
- Sample soils and growing media.
- Use basic machinery and equipment safely.
- Develop gardening, pruning or landscape skills through selected electives.

A starting point for work or further training in nurseries, landscaping, parks and gardens.

Delivery at your school

We work with your school to plan a face-to-face program across the school year. LT Training delivers training and assessment, with the timetable and school support agreed before the program starts.

We will talk through group size, classroom and outdoor learning areas, equipment and enrolment support.

Complete 15 units: 8 core and 7 electives. Qualification awarded on successful completion.

Let's talk about your 2027 students
